

# Samsung Galaxy S Blaze Power Button Replacement

Power buttons can be easily lost or broken during dis-assembly, this guide will illustrate a replacement.

Written By: Dustin

## TOOLS:

- [Phillips #00 Screwdriver](#) (1)
-

## Step 1 — Power Button

- Start by removing the back plastic cover by lifting it up from the notch on the left side of the phone

## Step 2

- Remove the battery and use a small Phillips head screwdriver to remove the marked up screws

## Step 3

- Use a flat tool to pry the two plastic cases apart
- The latches are very strong, so don't be afraid to use force

## Step 4

- Locate the missing button slot
- Place in replacement button, and close the plastic housing around it
- The button should be fully functional now, repeat past steps to reassemble the phone

To reassemble your device, follow these instructions in reverse order.
